2018

## Your advantages with FlexiClose<sup>re</sup>

- » Completely recyclable
- » Polyolefin based
- » High barrier
- » Very good processability

**SCHUR  
FLEXIBLES** THE FLEXIBLE PACKAGING PIONEERS.

# FlexiClose<sup>re</sup>

## The recyclable reclose solution

### INNOVATIVE DEVELOPMENT

Our FlexiClose<sup>re</sup> revolutionizes the world of MAP/CAP reclose packaging and was rewarded with the “Deutscher Verpackungspreis 2018 – Nachhaltigkeit” (German Packaging Award 2018 – Sustainability)! Combined with Schur Flexibles C-base it makes a reclosable, polyolefin solution with high barrier allowing for easy recycling of the entire packaging.

As a result, a closed loop with the packaging material is possible – in contrary to multi material structures that are more challenging for recycling technologies and cannot be easily introduced into existing recycling streams. FlexiClose<sup>re</sup> gives the same functionality for the consumer and for your business – and together we have made a large step for the environment!

#### Top web: FlexiClose<sup>re</sup>

- » Polyolefin based
- » Thickness: 85 µm and 95 µm
- » EVOH high barrier
- » Seals against PE
- » Optional: Antifog
- » Different opening forces
- » Reclosable up to 10x
- » Top web for MAP packaging (thermoformer or traysealer)

#### Bottom web: C-base

- » Polypropylene
- » Thickness: 200 up to 1100 µm
- » EVOH high barrier
- » PP or PE sealant
- » Optional: peel
- » Very good processability on thermoforming lines
- » Highly transparent

### ABOUT SCHUR FLEXIBLES GROUP

The Schur Flexibles Group is specialised in innovative, premium high-barrier packaging solutions for the food, tobacco and pharmaceutical industries with numerous production sites in Europe. With its integrated

value chain, from extrusion through to printing and lamination and on to full-line bag and pouch production, the group ranks among the industry's leading companies in flexible packaging in Europe.
